

The Fraunhofer Project Group Electrochemical storage Munich-Garching, the Chair for Electrical Energy Storage Technology at the Technical University of Munich and Iceventure cordially invite you to:

The 5<sup>th</sup> network event (Batteriestammtisch) in Munich on Thursday, 13<sup>th</sup> of November 2014

### Topic: „Grid Storage with Batteries - Opportunities and future”

The next Batteriestammtisch (after the summer break) focuses in particular on economic applications of batteries as grid storage. You can expect very interesting presentations about grid storage for the domestic area and for industrial use including a BMS live demo by "Hidden Player" from medium-sized businesses, which we decided to put on the front stage this time.

The speakers of this evening are:

Dr. Björn Eberleh, Founder Akasol, Head Research & Experiments,  
„Application of Grid Storage in the Domestic Area“

Roland Weixler, Director and Owner Ke-Tec GmbH  
Bernhard Rill, Vice President Gustav Klein GmbH & Co KG  
“AIC intelligent power electronics for grid support with a 500kWh battery from the automobile sector with a live demonstration of an access to the battery system”

We might have a third contribution by an energy utility about their plans and usage of batteries as grid storage.

Moderation: Dr. Kai-Christian Möller

There is plenty of room after the presentations for personal conversations and networking.

#### AGENDA 13.11.2014:

6.30 – 7.00 pm Admission and registration  
7.00 – 7.05 pm Welcome  
7.05 – 7.40 pm Presentation Dr. Eberleh  
7.40 – 7:55 pm Break  
7:55 – 8:30 pm Presentation Mr. Weixler and Mr. Rill

Possible one presentation more.

ca. 8:30 p.m. networking (open end)

(subject to modifications)

#### Place:

brunnwart  
Biedersteinerstr.78 | 80805  
Munich  
Easy to reach by underground  
or car

[directions](#) to the location

The 5th regular table is supported from  
Brunnwart with “Obatztem” and “Brezeln”.

**brunnwart**  
MÜNCHNER WIRTSCHAUS MIT BIERGARTEN

Next date for the Batteriestammtisch: 15th of January 2015 (planned)

#### Application & Admission:

To cover the cost we charge a fee:

**(Online-)Registration:** 10,00 EUR (8,40 EUR plus 19% Tax 1,60 EUR) or for  
**Not registered participants:** 15,00 EUR (12,37 EUR plus 19% Tax 2,63 EUR)

Interesse an Sponsoring: [www.iceseminars.eu/events/sponsoringmoglichkeiten.html](http://www.iceseminars.eu/events/sponsoringmoglichkeiten.html)

5th Batteriestammtisch

Date: 13th of Nov 2014

Start: 7 p.m.

#### Speakers:

Dr. Björn Eberleh

Roland Weixler

Bernhard Rill

#### Hosts:

ICEVENTURE

The amount is payable in cash at the box office. Of course, you will receive a receipt. Please register via the [event website](#) or by email to [tisch@iceseminars.eu](mailto:tisch@iceseminars.eu). Seats are limited.

**About the event series:**

The “Batteriestammtisch” was initiated by Iceventure, the Fraunhofer ICT and the EES Chair of the Technical University Munich.

The word “Stammtisch” meaning regulars’ table refers to an old Bavarian tradition of a social meeting point to discuss current news and events in a cozy and nice ambient.

The initiators pursue the following goals with this networking event for chemical energy storage:

- The linking of (not only) Bavarian actors
- The presentation of a wide range of chemical energy storage applications beyond electric mobility
- The facilitation of contacts and networking between research and industry
- Facilitating new business approaches by combining various fields of application and persons

Well-known personalities and experts from both fields - industry and research – lecture on a rotating basis on current topics of the area of chemical energy storage.
